# Operation Policy

## Overview

Concerning KakaoTalk messaging service provided by Kakao, KakaoTalk Operation Policy provides operational standards to ensure consistency in dealing with possible problems within the service and details that users need to keep in mind while using the service.

## Scope of Application

KakaoTalk Operation Policy shall be applied to chat service areas and chat-related additional services (ex. Talk Profile, Talk Board, Open Chat Cover, Open Chat Board, Open Profile/Posts, Channel Comment, etc). Other service areas and any content unprescribed in KakaoTalk Operation Policy shall be subject to Kakao Terms and Conditions and Kakao Operation Policy.

## Operational Principles

KakaoTalk operates the service in accordance with fundamental principles as follows:

### **First, privacy is the priority for all messages sent to/from users.**

KakaoTalk provides relevant functions to report chat messages from non-friends not to invade privacy of its users in Regular Chats, Group Chats and Secret Chats. Also, Kakao judges whether its operation policy is violated based on the reported messages and takes necessary measures if required to protect its users or services, such as limiting service usage and the like.

### **Second, Kakao applies more stringent standards for services that are accessible to any KakaoTalk users.**

For service areas that KakaoTalk users can view or engage in, such as Open Chat and Talk Channel, Kakao will apply more stringent operation principles to Regular Chats, Group

Chats, and Secret Chats to prevent anyone from distributing illegal information and protect its users. However, even if the service areas are open to any KakaoTalk users, Kakao will judge whether a message or post violates the operation policy only when reported pursuant to the top principle of protecting user privacy.

**Third, usage restrictions are applied in phases to the minimum range of service.**

Kakao has made it a rule to apply usage restrictions step-by-step depending on the reasons and number of violations, only for the service area where the violation occurred. However, Kakao can permanently ban the entire KakaoTalk service for clearly illegal acts such as child/juvenile/adult sex crimes, online financial frauds, and illicit distributions of lewd/gambling information, as well as malicious usage threatening stability and reliability of the KakaoTalk service.

**Fourth, operation policy mirrors the voice of users.**

KakaoTalk continues to hear your voice and strives to improve its operation policy so that user safety measures and user rights do not conflict. KakaoTalk is always listening to your voice to protect its users and ensure their privacy and freedom of expression whenever it is necessary to improve its policies. Any modification hereof shall be notified no less than seven (7) days before its existence.

However, users can raise an objection via Kakao Customer Service if they are dissatisfied with the results of service restriction measurements. In addition, if a serious service failure occurs due to the relevant act, Kakao may actively take measures in partnership with investigation institutions, such as linking it with legal countermeasures.
